## جے اے ٹیکسٹائل ملز لمیٹڈ

چیئرمین کا جائزہ

ہم بصد خوشی کمپنی کے مالی نتائج پیش کر رہے ہیں۔ ایندھن اور خام مال کی بڑھتی ہوئی قیمتوں کی وجہ سے معیشت پر منفی اثرات مرتب ہوئے ہیں اس کے باوجود کمپنی نے اس سال 45.958 ملین روپے منافع حاصل کیا ہے۔

ہم اس بات پر پرامید ہیں کہ کمپنی اس سال ترقی کی جانب گامزن رہے گی۔ اور اس سال بہتر نتائج حاصل کرنے کیلئے کاروبار کے بہترین طریقے اختیار کریں گے۔

انتظامیہ اس سلسلے میں پر عزم ہے کہ آپ کی کمپنی کی مالی کارکردگی کو برقرار رکھنے کے معاملے پر خصوصی توجہ مرکوز رکھے گی۔ ہم اپنے حصص یافتگان، کسٹمرز اور سٹاف کے شکر گزار ہیں جنکی مدد اور اعتماد کمپنی کو حاصل رہا۔

آخر میں، میں بورڈ آف ڈائریکٹرز کا بھی شکریہ ادا کرنا چاہتا ہوں جن کی طرف سے پورے سال کے دوران قیمتی شراکت اور راہنمائی فراہم کی جاتی رہی۔

**REVIEW REPORT ON STATEMENT OF COMPLIANCE CONTAINED IN LISTED  
COMPANIES  
(CODE OF CORPORATE GOVERNANCE) REGULATIONS, 2019**

We have reviewed the enclosed Statement of Compliance with Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of **J. A. Textile Mills Limited (the Company)** for the year ended **June 30, 2022** in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As part of our audit of financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls, or to form an opinion on effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations requires the Company to place before Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of approval of related party transaction by the Board of Directors upon recommendation of Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended **June 30, 2022**.

**INDEPENDENT AUDITOR'S REPORT  
TO THE MEMBERS OF J. A. TEXTILE MILLS LIMITED  
REPORT ON THE AUDIT OF THE FINANCIAL STATEMENTS**

**Opinion**

We have audited the annexed financial statements of **J. A. TEXTILE MILLS LIMITED** ("the Company"), which comprises the statement of financial position as at June 30, 2022, the statement of profit or loss, the statement of profit or loss and other comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended and notes to the financial statements including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purpose of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, statement of profit or loss, the statement of profit and loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the international Financial Reporting Standard (IFRSs) as applicable in Pakistan, and, give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the company's affairs as at June 30, 2022 and of the profit and other comprehensive income, the changes in equity and its cash flows for the year then ended.

**Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

**Material Uncertainty relating to Going Concern**

We draw attention of the members to the contents of note 1.2 to the annexed financial statements, which indicates that its accumulated loss stands at Rs. 34.487 million. Although the Company has earned net profit of Rs. 45.958 million during the current year but other factors indicate the existence of material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern. Our opinion is not modified in respect of this matter.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. In addition to the matter described in the Material Uncertainty Related to Going Concern section, we have determined the matters described below to be the key audit matters to be communicated in our audit report.

Following are the Key Audit Matter(s):

S. No	Key Audit Matter(s)	How the Matter was addressed in audit
1.	<b>CONTINGENCIES</b>	
	<p>There are certain legal, taxation and regulatory matters which are beyond the control of the company. Consequently, the management makes judgements about the incident and quantum of such liabilities arising from litigation, taxation and regulatory claims which leads to the impacts for the future outcome of legal or regulatory processes.</p> <p>There is an inherent risk that legal exposures are not identified and considered for financial reporting purposes on a timely basis. Importantly, the decision to recognize a provision and the basis of measurement are judgmental.</p> <p>Refer note – 5.11 and 21 to the financial statements.</p>	<ul style="list-style-type: none"> <li>• We assessed and tested the design and operating effectiveness of the controls over the identification, evaluation, provisioning and reporting of legal, tax and regulatory matters. We determined that we could rely on these controls for the purposes of our audit.</li> <li>• In view of the significant judgements required, we evaluated the Company's assessment of the nature and status of litigation, claims and provision assessments, and discussed with management to understand the legal position and the basis of material risk positions. We received legal letters from the Company's external counsel setting out their views in major cases.</li> <li>• Specifically, we challenged the timing of recognition for cases where there was potential exposure, but it was not clear that a provision should be recognized e.g., where obtaining reliable estimates are not considered possible.</li> <li>• As set out in the financial statements, the outcome of litigation and regulatory claim is dependent on the future outcome of continuing legal and regulatory processes and consequently the calculation of the provision is subject to inherent uncertainty.</li> </ul>

2.	INVENTORIES	
	<p>Stock in trade forms a significant part of the Company's total assets. Stock-in-Trade comprises of raw and packing materials and finished goods which are stated at lower of cost and estimated net realizable value.</p> <p>We identified the valuation of stock in-trade as a key audit matter because there is a potential risk of inappropriate valuation as well as assessing which items may be slow-moving or obsolete involve significant management judgement and estimation.</p> <p>Refer to note – 5.4 and 10 of the financial statement.</p>	<p>Our audit focused on whether the valuation of year-end inventory was in line with IAS 2. This included challenging judgments taken regarding obsolescence and net realizable value provisions.</p> <p>We obtained assurance over the appropriateness of management's assumptions applied in calculating the value of inventories by:</p> <ul style="list-style-type: none"><li>• Attending the year end stock take to gain comfort over the existence and condition of inventories and internal controls designed by the company.</li><li>• Obtaining the final valuation sheets of the inventories and tracing quantities from working papers of observation of physical stock taking.</li><li>• Obtaining understanding of internal controls designed by the company over recording of purchases and valuation of the inventories and testing their operating effectiveness on sample basis.</li><li>• Assessing historical costs recorded in the inventory valuation by performing test of details on purchases. Evaluating that the valuation basis used are appropriate and consistent including analysis of costing of different items on sample basis.</li><li>• Assessing the management's determination of the net realizable values and intended use of the inventories including performing tests on the sales prices fetched by the company before and after year end.</li><li>• Considering the adequacy of the company's disclosures in respect of inventories.</li></ul>

**Information Other than the Financial Statements and Auditor's Report Thereon**

Management is responsible for the other information. The other information comprises the information included in the Company's Annual Report for 2021, but does not include the financial statements and auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements, or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information; we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of Management and the Board of Directors for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting and reporting standards as applicable in Pakistan, the requirements of the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of directors is responsible for overseeing the company's financial reporting process.

**Auditors' Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

**ARSHAD RAHEEM & CO**  
Chartered Accountants

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Report on Other Legal and Regulatory Requirements:**

Based on our audit, we further report that in our opinion:

- a) Proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017).
- b) The statement of financial position, the statement of profit or loss, the statement of profit or loss and other comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017(XIX of 2017) and are in agreement with the books of account and returns.
- c) Investments made and expenditure incurred during the year were in accordance with for the purpose of the Company's business; and
- d) No Zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980).

The engagement partner on the audit resulting in this independent auditors' report is Arshad Raheem.

## J. A . TEXTILE MILLS LIMITED

### NOTES TO THE FINANCIAL STATEMENTS

#### FOR THE YEAR ENDED JUNE 30, 2022

#### 1. THE COMPANY AND ITS OPERATIONS

1.1 J.A. Textile Mills Limited (the Company) was incorporated in Pakistan on 25 May, 1987 under the repealed Companies Ordinance, 1984 (now Companies Act 2017). The shares of the Company are listed on Pakistan Stock Exchange. The Mill is situated at 29-KM, Sheikhpura Road, Faisalabad in the province of Punjab and the registered office of the Company is situated at JK House, 32-W, Susan Road, Madina Town, Faisalabad. The principal business activity of the Company is manufacturing and sale of yarn.

#### 1.2 Going concern assumption

The Company has accumulated loss of Rs. 34.487 million (2021: Rs. 91.862 million) as against issued, subscribed and paid up capital of Rs. 126.012 as at June 30, 2022. These factors indicate the existence of material uncertainty which may cast significant doubt about the Company's ability to continue as a going concern and the Company may be unable to realize its assets and discharge its obligations in the normal course of business.

In spite of the accumulated losses and Covid-19 situation, the management of the Company is making its strenuous efforts, optimal production strategies and effective cost controls to improve the performance of the Company. The balancing and modernization of plant and machinery in previous years, improvement in future industry situation and better production efficiency are the main factors for improvements. The management positively looks forward to counter all challenges and is firmly committed to deliver the best possible results and will continue to meet its objectives and goals. Based upon these aspects and continuing financial support from directors and associates, the financial statements have been prepared on going concern basis.

#### 2. Impact of COVID-19 on the financial statements

The Company has taken appropriate measures to keep its human resource and assets safe and secure. Further, the Company is continuously monitoring the situation to counter act the changed environment.

The management believes that there is no significant financial impact of COVID-19 on the carrying amounts of assets and liabilities or items of income or expenses, as disclosed in these financial statements. The management has evaluated and concluded that there are no material implications of COVID-19 that require specific disclosures in these financial statements

#### 3. STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRSs) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where the provisions of and directives issued under the Companies Act, 2017 differ from the IFRSs, the provisions of and directives issued under the Companies Act, 2017 have been followed.

These financial statements are presented in Pakistani Rupee which is also the Company's functional currency.

**4. CHANGES IN ACCOUNTING STANDARDS, INTERPRETATIONS AND PRONOUNCEMENTS**

4.1. Standards, amendments and interpretations to existing standards that are not yet effective and have not been early adopted by the Company:

4.2. The above standards, amendments to approved accounting standards and interpretations are not likely to have any material impact on the Company's financial statements.

Other than the aforesaid standards, interpretations and amendments, IASB has also issued the following standards and interpretation, which have not been notified locally or declared exempt by the SECP as at June 30, 2022:

- IFRS 1 (First Time Adoption of International Financial Reporting Standards)
- IFRS 17 (Insurance Contracts)
- IFRIC 12 (Service concession arrangements)

4.3. Securities and Exchange Commission of Pakistan (SECP through S.R.O 1177(1)/2021 dated September 13, 2021 has notified that in respect of companies holding financial assets due from the Government of Pakistan (GoP), the requirements contained in IFRS 9 with respect to application of Expected Credit Loss (ECL) model shall not be applicable till June 30, 2022, provided that such companies shall follow relevant requirements of IAS 39 'Financial Instruments: Recognition and Measurement' in respect of above referred financial assets during the exemption period.

The Company has voluntarily not availed this exemption and has continued to apply the requirements contained in IFRS 9 with respect to application of Expected Credit Loss (ECL) model.

**5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

The significant accounting policies adopted in preparation of these financial statements are set out below and have been applied consistently to all periods presented in these financial statements.

**5.1 Property, plant and equipment**

**5.1.1 Operating fixed assets**

Property, plant and equipment except free hold land, building on freehold land, plant and machinery, power generators, electric installations and factory equipment are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Building on freehold land, plant and machinery, power generators, electric installations and factory equipment are stated at revalued amounts less accumulated depreciation and accumulated impairment losses, if any. Freehold land is stated at revalued amount.

Cost in relation to operating fixed assets signifies historical cost. Historical cost includes expenditures that are directly attributable to the acquisition or construction of assets.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with them will flow to the entity and its cost can be reliably measured. Cost incurred to replace a component of an item of operating fixed assets is capitalized and the asset so replaced is retired from use. Normal repairs and maintenance are charged to the statement of profit or loss during the period in which they are incurred.

Depreciation is charged to statement of profit or loss applying the reducing balance method so as to write off the historical cost of the assets over their expected useful life at the rates mentioned in note 7.1 of these financial statements.

Depreciation on additions during the year is charged for the full month in which the asset is available for use while no depreciation is charged in the month in which the asset is disposed off. The residual values and useful lives are reviewed by the management at each financial year end and adjusted if impact on depreciation is significant.

Any gain or loss on disposal of assets is included in statement of profit or loss in the year in which the assets are derecognized.

**5.1.2 Capital work in progress**

Capital work in progress is stated at cost less any identified impairment loss and represents direct cost of material, labour, applicable overheads and borrowing costs on qualifying assets. Transfers are made to relevant operating fixed assets category as and when assets are available for its intended use.

**5.2 Impairment of non financial assets**

The carrying amounts of the Company's non-financial assets, other than stock in trade and stores and spares, are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists then the asset's recoverable amount is estimated. For goodwill and intangible assets that have indefinite lives or that are not yet available for use, recoverable amount is estimated at each reporting date.

An impairment loss is recognized if the carrying amount of an asset or its cash-generating unit exceeds its recoverable amount. A cash-generating unit is the smallest identifiable asset group that generates cash flows that largely are independent from other assets and groups.

Impairment losses are recognized in profit and loss. Impairment losses recognized in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets of the unit on a pro-rata basis. Impairment losses on goodwill shall not be reversed.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized. Prior impairments of non-financial assets are reviewed for possible reversal at each reporting date.

**5.3 Stores and spares**

These are valued at moving average cost except items-in-transit which are valued at cost accumulated to the reporting date. Provision is made for slow moving and obsolete store items when so identified.

**5.4 Stock in trade**

These are valued at lower of cost and net realizable value. Cost is determined as follows:

Raw material - At factory	Annual average cost
- In Transit	Invoice value plus direct charges in respect thereof.
Packing material	Moving average cost
Work in process and finished goods	Prime cost including a proportion of production overheads.
Waste	At net realizable value.

Net realizable value signifies the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to be incurred in order to make the sale.

**5.5 Trade debts and other receivables**

Trade receivables are initially recognized at fair value and subsequently carried at amortized cost which approximate fair value of the consideration receivable, less any allowance for expected credit losses.

The Company has applied the simplified approach to measuring expected credit losses, which uses a lifetime expected loss allowance. To measure the expected credit losses, trade receivables have been grouped based on days overdue.

Other receivables are recognized at amortized cost, less any allowance for expected credit losses.

**5.6 Cash and cash equivalents**

For the purpose of cash flow statement cash and cash equivalents comprise of cash and cheques in hand and at banks and include short term highly liquid investments. The cash and cash equivalents are readily convertible to known amount of cash and are subject to insignificant risk of change in value.

**5.7 Surplus on revaluation of property, plant and equipment**

Increases in the carrying amounts arising on revaluation of property, plant and equipment are recognized, net of tax, in other comprehensive income and accumulated in equity under the heading 'Surplus on revaluation of property, plant and equipment'. However the increase is recognized in statement of profit or loss to the extent that it reverses a revaluation decrease of the same asset previously recognized in statement of profit or loss.

Decreases in the carrying amounts arising on revaluation of property, plant and equipment are recognized, net of tax, in profit or loss. However revaluation decrease that reverse previous increases of the same asset is recognized in other comprehensive income to the extent of the remaining surplus attributable to that asset. The decrease recognized in other comprehensive income reduces the amount accumulated in equity under the heading 'Surplus on revaluation of property, plant and equipment'.

Following amounts are transferred directly to retained earnings from equity under the heading 'Surplus on revaluation of property, plant and equipment' through the Statement of Changes in Equity:

- an amount equal to the difference between depreciation based on the revalued carrying amount of the asset and depreciation based on the original cost of that asset; or
  
- an amount equal to carrying amount of revaluation surplus of the asset on its disposal.

All transfers to / from the account of 'surplus on revaluation of property, plant and equipment' are net of applicable deferred income tax. Surplus on revaluation of property, plant and equipment reported under equity is not available for distribution of dividend.

**5.8 Staff retirement benefits**

**Defined Contribution Plan**

There is a contributory provident fund for all employees of the Company for which contributions are charged to profit or loss as and when incurred.

The Company makes monthly contribution to the fund at the rate of 8.33% whereas employees of the Company also make monthly contributions to the fund at the rate of 8.33% of basic salary. The assets of the fund are held separately under the control of trustees.

**5.9 Trade and other payables**

Liabilities for trade and other payables are carried at their amortized cost, which approximate fair value of the consideration to be paid in future for goods and services received, whether or not billed to the Company. Exchange gains and losses arising on translation in respect of liabilities in foreign currency are added to the carrying amount of the respective liabilities.

**5.10 Provisions**

A provision is recognized when the Company has a present, legal or constructive obligation as a result of a past event when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of obligation can be made. Provisions are reviewed at each reporting date and adjusted to reflect current best estimate.

**5.11 Contingencies**

The assessment of the contingencies inherently involves the exercise of significant judgment as the outcome of the future events cannot be predicted with certainty. The Company, based on the availability of the latest information, estimates the value of contingent assets and liabilities, which may differ on the occurrence/ non- occurrence of the uncertain future event(s).

**5.12 Revenue recognition**

Revenue is recognized at an amount that reflects the consideration to which the Company is expected to be entitled in exchange for rendering of services to a customer. For each contract with a customer, the Company;

- (i) identifies the contract with a customer;
- (ii) identifies the performance obligations in the contract;
- (iii) determines the transaction price;
- (iv) allocates the transaction price to the separate performance obligations in the contract; and
- (v) recognizes revenue when each performance obligation is satisfied.

Variable consideration within the transaction price is estimates and determined using either the 'expected value' or 'most likely amount' method. The measurement of variable consideration is subject to a constraining principle whereby revenue will only be recognized to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognized will not occur. The measurement constraint continues until the uncertainty associated with the variable consideration is subsequently resolved. Amounts received that are subject to the constraining principle are initially recognized as deferred revenue in the form of a separate refund liability.

- a) **Sale of goods**  
Revenue from the sale of goods is recognized at the point in time when the customer obtains control of the goods, which is generally at the time of delivery.
- b) **Interest income**  
Profit on bank balances in deposit accounts and interest income on deposit with Sui Northern Gas Pipelines Limited (SNGPL) are recognized on a time proportion basis on the principal amount outstanding and at the applicable rate.
- c) **Profit on fair value through other comprehensive income investments**  
Unrealized gains / (losses) arising on fair value measurements of investments classified as 'fair value through other comprehensive income' are included in other comprehensive income in the period in which they arise.  
Gains / (losses) arising on disposal of investments are recognized on the date when the transaction takes place. When the investment is disposed off or derecognized, the cumulative gains / (losses) previously recognized in other comprehensive income is reclassified from equity to profit or loss and recognized in other income / (other expenses).
- d) **Other revenue**  
Other revenue is recognized when it is received or when the right to receive payment is established.

**5.13 Foreign currency translation**

All monetary assets and liabilities in foreign currencies are translated into rupees at exchange rates prevailing at the balance sheet date. Transactions in foreign currencies are translated into rupees at exchange rates prevailing at the date of transaction. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated into rupees at exchange rates prevailing at the date of transaction. Non-monetary assets and liabilities denominated in foreign currency that are stated at fair value are translated into rupees at exchange rates prevailing at the date when fair values are determined. Exchange gains and losses are included in the statement of profit or loss immediately.

**5.14 Taxation**

**Current taxation**

The current income tax is computed on the basis of profit for the year adjusted for fiscal purposes, minimum tax u/s 113 or Alternate Corporate Tax (ACT) u/s 113C of the Income Tax Ordinance, 2001 after taking into account the tax credit or rebate, if any.

**Deferred Taxation**

Deferred tax is accounted for using the balance sheet method in respect of all temporary differences arising from differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax basis used in the computation of the taxable profit. Deferred tax liabilities are generally recognized for all taxable temporary differences and deferred tax assets to the extent that it is probable that taxable profits will be available against which the deductible temporary differences, unused tax losses and tax credits can be utilized.

**5.15 Related party transactions**

All transactions with related parties are carried out at arm's length. The prices are determined in accordance with comparable uncontrolled price method.

**5.16 Dividend and other appropriations**

Dividend is recognized as a liability in the period in which it is approved. Appropriations of profits are reflected in the statement of changes in equity in the period in which such appropriations are made.

**5.17 Financial instruments**

**5.17.1 Financial assets**

A financial asset is measured at amortized cost if it is held in order to collect contractual cash flows which arise on specified dates and that are 'solely payment of principal and interest (SPPI)' on the principal amount outstanding. A debt investment is measured at fair value through other comprehensive income if it is held in order to collect contractual cash flows which arise on specified dates that are solely principal and interest and as well as selling the asset on the basis of its fair value. All other financial assets are classified and measured at fair value through profit or loss unless the Company makes an irrevocable election on initial recognition to present gains and losses on equity instruments in other comprehensive income. Despite these requirements, a financial asset may be irrevocably designated as measured at fair value through profit or loss to reduce the effect of, or eliminate, an accounting mismatch.

**A. Classification and measurement of financial assets**

**Investments and other financial assets**

**Classification:**

The Company classifies its financial assets in the following measurement categories:

- those to be measured subsequently at fair value (either through other comprehensive income, or through profit or loss), and
- those to be measured at amortized cost

The classification depends on the Company's business model for managing the financial assets and the contractual terms of the cash flows. In order for a financial asset to be classified and measured at amortized cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest (SPPI)' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. The Company's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows.

For assets measured at fair value, gains and losses will either be recorded in profit or loss or other comprehensive income. For investments in debt instruments, this will depend on the business model in which the investment is held. The Company reclassifies debt investments when and only when its business model for managing those assets changes.

**Measurement:**

At initial recognition, the Company measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs that are directly attributable to the acquisition of the financial asset. Transaction costs of financial assets carried at fair value through profit or loss are expensed in profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

**Debt instruments**

Subsequent measurement of debt instruments depends on the Company's business model for managing the asset and the cash flow characteristics of the asset. There are three measurement categories into which the Company classifies its debt instruments:

- **Amortized cost**

Financial assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in other income using the effective interest rate method. Any gain or loss arising on derecognition is recognized directly in profit or loss and presented in other income / (other expenses) together with foreign exchange gains and losses. Impairment losses are presented as separate line item in the statement of profit or loss.

- **Fair value through other comprehensive income (FVTOCI)**

Financial assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVTOCI. Movements in the carrying amount are taken through other comprehensive income, except for the recognition of impairment losses (and reversal of impairment losses), interest income and foreign exchange gains and losses which are recognized in profit or loss. When the financial asset is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss and recognized in other income / (other expenses). Interest income from these financial assets is included in other income using the effective interest rate method. Foreign exchange gains and losses are presented in other income/ (other expenses) and impairment losses are presented as separate line item in the statement of profit or loss.

- **Fair value through profit or loss (FVTPL)**

Financial assets at fair value through profit or loss include financial assets held for trading, financial assets designated upon initial recognition at fair value through profit or loss, or financial assets mandatorily required to be measured at fair value. Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Financial assets with cash flows that are not solely payments of principal and interest are classified and measured at fair value through profit or loss, irrespective of the business model. Notwithstanding the criteria for debt instruments to be classified at amortized cost or at FVTOCI, as described above, debt instruments may be designated at fair value through profit or loss on initial recognition if doing so eliminates, or significantly reduces, an accounting mismatch.

Financial assets at fair value through profit or loss are carried in the statement of financial position at fair value with net changes in fair value recognized in the statement of profit or loss.

**B. Derecognition:**

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized when:

The rights to receive cash flows from the asset have expired, or

The Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership.

When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognize the transferred asset to the extent of its continuing involvement. In that case, the Company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

**C. Impairment:**

The Company record an allowance for a forward-looking expected credit loss (ECL) approach for all loans and other debt financial assets not held at FVPL.

ECLs are based on the difference between the contractual cash flows due in accordance with the contract and all the cash flows that the Company expects to receive. The shortfall is then discounted at an approximation to the asset's original effective interest rate.

For trade and other receivables, the Company has applied the standard's simplified approach and has calculated ECLs based on lifetime expected credit losses. The Company has established a provision matrix that is based on the Company's historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. However, in certain cases, the Company may also consider a financial asset to be in default when internal or external information indicates that the Company is unlikely to receive the outstanding contractual amounts in full before taking into account any credit enhancements held by the Company.

The Securities and Exchange Commission of Pakistan (SECP) vide its S.R.O 985 (I)/2019 dated 02 September 2019 has deferred the requirements of IFRS 9 with respect to application of 'Expected Credit Loss Method' in respect of companies holding financial assets due from the Government of Pakistan till 30 June 2021. In this regard, the companies shall follow relevant requirements of IAS 39 'Financial Instruments: Recognition and Measurement' during the exemption period.

**5.17.2 Financial liabilities**

**A. Classification and measurement:**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

- **Financial liabilities at fair value through profit or loss**

Financial liabilities at fair value through profit or loss include financial liabilities held for trading and financial liabilities designated upon initial recognition as at fair value through profit or loss. Gains or losses on liabilities held for trading are recognized in the statement of profit or loss. Financial liabilities designated upon initial recognition at fair value through profit or loss are designated at the initial date of recognition, and only if the criteria in IFRS 9 are satisfied. The Company has not designated any financial liability as at fair value through profit or loss.

- **Loans and borrowings**

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR (effective interest rate) method. Gains and losses are recognized in the statement of profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit or loss.

This category generally applies to interest-bearing loans and borrowings.

**B. Derecognition:**

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

**5.17.3 Offsetting of financial assets and liabilities**

Financial assets and financial liabilities are set off and the net amount is reported in the financial statements when there is a legally enforceable right to set off and the company intends either to settle on a net basis, or to realize the assets and to settle the liabilities simultaneously.

**6. CRITICAL ACCOUNTING ESTIMATES AND JUDGMENTS**

The preparation of financial statements in conformity with the approved accounting standards requires the use of certain accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, are as follows;

- Estimate of useful life of property, plant and equipment - note 5.1
- Impairment of non financial assets - note 5.2
- Stores and spares - note 5.3
- Stock in trade - note 5.4
- Provisions - note 5.10
- Contingencies - note 5.11
- Taxation - note 5.14

The Company's freehold land, building on freehold land, plant and machinery, power generators, electric installations and factory equipment were revalued by M/S Yousaf Adil Saleem & Co. Chartered Accountants as on September 30, 1998 and by M/S Nizamy Associates as on June 30, 2007 and June 30, 2012, M/S Amir Evaluators & Consultants as on 31th December, 2017 and S. A. Associates as on June 30, 2021. Revaluation of freehold land is carried out at market value and building on freehold land, plant and machinery, power generators, electric installations and factory equipment on depreciated replacement values.

The fair valuation of the revalued assets are considered to represent a level 2 valuation based on significant observable inputs being the location and condition of the assets. The fair values are subject to change owing to change in input. However, the management does not expect there to be a material sensitivity to the fair values arising from the non-observable inputs. The basis of revaluation for items of these fixed assets were as follows:

**Freehold land**

Property brokers, dealers and estate agents were contacted to ascertain the asking and selling prices for properties of the same nature in the immediate neighborhood and adjoining areas. Neighboring properties which have been recently sold or purchased, were investigated to ascertain a reasonable selling / buying price. Properties that were up for sale were examined for asking price. An average of the above values was then assigned to the property.

**Building on freehold land**

Construction specifications were noted for each factory and residential building and structure and current construction rates were used to obtain replacement values of building, to which a depreciation formula was applied, based upon the Company's estimates of balance life to arrive at the current assessed value.

**Plant and machinery**

Plant and machinery have been evaluated / assessed by keeping in view their present physical condition, the remaining useful life / economic life and technological obsolescence. Further, new replacement values were arrived by using current local and foreign market values for the similar type of plant and machinery. These current local and foreign market values were taken into account on the basis of technical obsolescence, efficiency, maintenance, replacement and other related factors involved.

**Power generators**

These were evaluated / assessed by keeping in view their present physical condition, the remaining useful life / economic life and technological obsolescence. Further, new replacement values were arrived by using current market values for the similar type of assets. These current market values were taken into account on the basis of technical obsolescence, efficiency, maintenance, replacement and other related factors involved.

**Electric installations**

These were evaluated / assessed by keeping in view their present physical condition and the remaining useful life / economic life. Further, new replacement values were arrived by using current market values for the similar type of assets. These current market values were taken into account on basis of efficiency, maintenance, replacement and other related factors involved.

**Factory equipment**

These were evaluated / assessed by keeping in view their present physical condition, the remaining useful life / economic life and technological obsolescence. Further, new replacement values were arrived by using current market values for the similar type of assets. These current market values were taken into account on basis of technical obsolescence, efficiency, maintenance, replacement and other related factors involved.

**21. CONTINGENCIES AND COMMITMENTS****21.1 Contingencies**

The Faysal Bank Limited filed a suit against the Company for recovery of Rs. 48.560 million on 21 September 2001 before Banking Court - II, Faisalabad. The Company made the payment of principal amount of Rs 44.510 million as against the purchase price of 48.560 million so the banking court directed the Faysal bank to recover only 4.05 million vide judgment dated 4 November 2002. The bank filed an appeal before the Lahore High Court (LHC), Lahore, against the decision of Banking Court - II, Faisalabad for recovery of Rs. 18.726 Million (principal 45.616 minus payment as per bank 26.890). The High court enhanced the liability at Rs. 56.845 million and allowed to adjust Rs. 26.890 million already paid by the Company as per statement of accounts of the bank and established Rs. 29.955 million as recoverable from the Company after adjustment of already paid amount along with cost of funds vide judgment dated 6 July 2010. Regarding contention of payment between bank and Company the LHC has remitted this matter to the banking court for deputation of chartered accountant for verification of payment by the company to the bank.

Having been aggrieved by the decision of the Honorable Lahore High Court, Lahore, the Company filed an appeal before the Supreme Court of Pakistan which is pending adjudication. The management of the company has optimistic opinion that the case will be decided in its favor on the pretext that due relief had already been given by the apex court in identical cases.

**21.2 Commitments**

**37. FAIR VALUE OF FINANCIAL INSTRUMENTS**

The carrying values of the financial assets and financial liabilities approximate their fair values. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

**Fair value hierarchy**

Fair value is defined as the price that would be received to sell an asset or paid to settle a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the company to classify fair value measurements and fair value hierarchy that reflects the significance of the inputs used in making the measurements of fair value hierarchy has the following levels:

Level 1 : Fair value measurements using quoted (unadjusted) in active markets for identical asset or liability.

Level 2 : Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).

Level 3 : Fair value measurements using inputs for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

Transfer between levels of the fair value hierarchy are recognized at the end of the reporting period during which the changes have occurred.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

**38. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES**

The Company finances its operations through equity, borrowings and management of working capital with a view to maintain an appropriate mix between various sources of finance to minimize risk. The Company follows an effective cash management and planning policy and maintains flexibility in funding by keeping committed credit lines available. Market risks are managed by the Company through the adoption of appropriate policies to cover currency risks and interest rate risks.

The Company has exposures to the following risks from its use of financial instruments:

- Market risk
- Credit risk
- Liquidity risk

**38.1 Market risk**

Market risk is the risk that the value of the financial instrument may fluctuate as a result of changes in market interest rates, foreign exchange rates or the equity prices due to a change in credit rating of the issuer or the instrument, change in market sentiments, speculative activities, supply and demand of securities and liquidity in the market. There has been no change in the Company's exposure to market risk or the manner in which this risk is managed and measured.

**38.1.1 Interest rate risk:**

Interest rate risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Majority of the interest rate exposure arises from deposit with SNGPL and balances in deposit accounts.

At the reporting date, the interest rate profile of the Company's interest bearing financial instruments is as follows:

	2022	2021
<b>Variable rate instruments</b>		
Security deposit with SNGPL (Rupees)	21,399,568	18,891,500
Effective interest rate in percentage	5.00	5.00
Bank balances in deposit accounts (Rupees)	218,730,238	105,592,421
Effective interest rate in percentage	5.88	5.88

**Cash flow sensitivity analysis for variable rate instruments**

If interest rates on balances in deposit accounts and deposit with SNGPL at the year end date, fluctuate by 100 bps higher / lower with all other variables, in particularly foreign exchange rates held constant, profit before taxation for the year 2022 and 2021 would have been affected as follows:

	2022 Rupees	2021 Rupees
Effect on profit and loss of an increase in interest rate for deposit with SNGPL	628,485	546,743
Effect on profit and loss of an increase in interest rate for balances in deposit accounts	194,519	175,880
	<u>823,004</u>	<u>722,623</u>

Decrease in interest rates at June 30 would have had the equal but opposite effect of these amounts. Sensitivity analysis has been prepared on symmetric basis.

**38.1.2 Currency risk**

Currency risk is the risk that the fair value or future cash flows of a financial instrument, will fluctuate because of changes in foreign exchange rates. Foreign currency risk arises mainly future commercial transactions or receivables and payables that exist due to transactions in foreign currencies.

**Exposure to Currency Risk**

The Company's exposure to currency risk is restricted to the balance in foreign currency bank account. The Company's exposure to currency risk is as follows:

Particulars	Currency	2022		2021	
		F.Currency	Rupees	F.Currency	Rupees
Bank balance	US \$	970	198,220	970	153,068

The company has applied exchange rate of Rs. 204.35 (2021: 157.80) for conversion at the reporting date.

**Currency rate sensitivity analysis**

If the functional currency, at reporting date, had weakened by 5% against the foreign currencies with all other variables held constant, the profit before taxation would have increased for the year 2022 and 2021 by the following amounts:

	2022 Rupees	2021 Rupees
	<u>9,227</u>	<u>7,125</u>

A 5% strengthening of the functional currency against foreign currencies at June 30 would have had the equal but opposite effect of these amounts.

Currency risk sensitivity to foreign exchange movements has been calculated on a symmetric basis. The analysis assumes that all other variables remained constant.

**38.1.3 Price Risk :**

Price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

The Company is exposed to price risk, because of the investments held by the Company in mutual funds, and classified on the statement of financial position as fair value through other comprehensive income of Rs. 358,688/- (2021: 393,744/-)

If redemption price on mutual funds, at the year end date, fluctuate by 5% higher / lower with all other variables held constant, profit after tax for the year would have been Rs. 17,038/- (2021: 18,329/-) higher / lower, mainly as a result of higher / lower redemption price on units of mutual funds.

**38.2 Credit risk:**

Credit risk is the risk of financial loss to the Company if a customer or counter-party to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's investments, deposits, receivables from customers, receivables from related parties, advances, other receivables, bank balances and term deposits with banks. The carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the reporting date was:

**J. A. Textile Mills Limited**

	<b>2022</b>	<b>2021</b>
	<b>Rupees</b>	<b>Rupees</b>
Long term deposits	32,145,750	21,878,462
Trade debts	31,063	5,959,814
Advances and other receivables	119,774	121,036
Short term investment	358,688	393,744
Accrued income	1,044,677	944,575
Bank balances	219,207,178	106,043,439
	<u>252,907,130</u>	<u>135,341,070</u>

Long term deposits have been mainly placed with suppliers of electricity, gas and telecommunication services. Considering the financial position and credit quality of the institutions, the Company's exposure to credit risk is not significant.

For trade debts, internal risk assessment process determines the credit quality of the customers, taking into account their financial positions, past experiences and other factors. Moreover, the management regularly monitors and reviews customers' credit exposure. Accordingly, the company is not exposed to any significant credit risk.

Advances consist of advances to employees. Advances to employees are secured against employees' retirement benefits. Other receivables constitute receivable from Punjab Labour Appellate Tribunal. Therefore, the Company is not exposed to any significant credit risk on these advances and other receivables.

Short term investment is investment in mutual fund. The credit risk on liquid funds is limited because counter party is bank with reasonably high credit ratings.

Accrued income constitute accrued profit receivables from SNGPL. Considering the financial position and credit quality of the institutions, the Company's exposure to credit risk is not significant.

	<b>2022</b>	<b>2021</b>			
	<b>Credit Ratings</b>				
NBP Fund Management Limited	AM1	AM1			
The credit quality of Company's bank balances can be assessed by reference to external credit ratings or to historical information about counterparty default rate:					
Name of Bank	Date	Long term	Short term	Outlook	Agency
Al-Barka Bank Limited	29-Jun-22	A+	A-1	Stable	JCRVIS
Bank Al-Habib Limited	25-Jun-22	AAA	A-1+	Stable	PACRA
JS Bank Limited	23-Jun-22	AA-	A-1+	Stable	PACRA
Dubai Islamic Bank Limited	29-Jun-22	AA	A-1+	Stable	JCRVIS
National Bank of Pakistan	25-Jun-22	AAA	A-1+	Stable	PACRA
United Bank Limited	30-Jun-22	AAA	A-1+	Stable	JCRVIS

Due to Company's long standing relationships with these counterparties and after giving due consideration to their strong financial standing, management does not expect non-performance by these counter parties on their obligations to the Company. Accordingly, the risk is minimal.

## 38.3 Liquidity risk

Liquidity risk is the risk that an entity will encounter difficulty in meeting obligations associated with financial liabilities.

The company's approach to manage liquidity risk is to maintain sufficient level of liquidity by holding highly liquid assets and the availability of funding through an adequate amount of committed credit facilities. This includes maintenance of balance sheet liquidity ratios through working capital management. Further, liquidity position of the Company is closely monitored through budgets, cash flow projections and comparison with actual results by the Board. The management believes that the company is not exposed to any liquidity risk.

The following are the contractual maturity analysis of financial liabilities as at June 30, 2022 and 2021:

## 39. CAPITAL RISK MANAGEMENT

The primary objective of the Company's capital management is to safeguard the company's ability to continue as a going concern, maintain healthy capital ratios, strong credit rating and optimal capital structures in order to ensure ample availability of finance for its existing and potential investment projects, so that it can continue to provide returns for shareholders thereby maximizing their wealth, benefits for other stakeholders and reduce the cost of capital.

The Company manages the capital structure in the context of economic conditions and the risk characteristics of the underlying assets. In order to maintain or adjust the capital structure, the Company may, for example, adjust the amount of dividends paid to shareholders, issue new shares, or sell assets to reduce debt.

As at June 30, 2022 and 2021, the Company had surplus reserves to meet its requirements.

40. DATE OF AUTHORIZATION FOR ISSUE
